- **Action Item Review**

BECCM Roadmap

			Q1 FY11			Q2 FY11			Q3 FY11			Q4 FY11		
Topic	**Lead/Domain**	**Current Status**	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep

Official Initiatives

Unit of Measure — Jerry Cole, John Garbarino (DCMO) — Developed Final Functional Requirements / Recommendations, Data Analysis & Technical Recommendations; Requirements Package due 30 Dec 2010

- IFA Assessment Completion
- Status Update
- UoM Update
- Tech Syntax Phase Approval
- Complete Requirements Package
- Approval of Enterprise Data Solution
- UoM BEA 8.1 Pre- Workshops
- UoM BEA 8.1 Workshops
- UoM BEA 8.1 Update

Planned Initiatives

Address — Jerry Cole, Zack Waltz (RP&ILM) — Summary view prepared for FGDC Standard. Coordinated with SCI

- Brief Federal Standard
- Address topic assigned to WG
- Business Vocabulary Alignment
- Approval of Functional Approach
- Draft Intended Use Cases
- Draft Technical Results
- Approval of Enterprise Data Solution

Program — Jerry Cole, Brian Jackson (HRM/WSLM/FM) — HRM to present Program definition/recommendation at December BECCM. HRM still holding WGs. FM COI request to be involved with Program initiative

- HRM Program Informational Brief
- HRM Definition
- HRM Program WG
- Informational Brief: Acquisition Program
- HRM Program Status Update

Informational Discussions and General Business

Heat Map 2: P2P — Jerry Cole, Mark King (DCMO) — Weekly workshops for P2P Process Models

- BEA Workshops
- BEA 7.2 Content Lockdown
- BEA 8.0 Update

Heat Map 3: O2C — Jerry Cole, John Garbarino (DCMO) — Coordinating with SCI and DLA J3/J8 for final O2C scope and minimum essential data elements

- Workshop w/DLA / DLMSO
- Stakeholder Review Workshops
- Finalize Minimum Data Standard
- Final Stakeholder Review
- O2C BEA 8.1 Pre-Workshops
- UoM BEA 8.1 Workshops
- UoM BEA 8.1 Update

Heat Map 4: H2R — Jerry Cole, Amy Anda (DCMO) — Ongoing WG's between P&RIM, DCMO, BTA addressing Level 1 & 2 Processes

- H2R Workshops
- H2R Workshops
- H2R Workshops

Ad-Hoc Action Items — N/A — Currently no action items

Legend

- ● Actual BECCM Escalation
- ○ Estimated BECCM Escalation
- ◆ Milestone
- ◇ Sub-Milestone
- ▲ Associated Action Item
- ■ Actual BECCM Exit
- □ Estimated BECCM Exit

Address Status Informational Update

Mr. Jerry Cole

Standards,
Transformation Priorities
and Requirements
Supply Chain
Management

Dec 8, 2010

Agenda

- Address Problem Statement - Draft

- Overview of Federal Geographic Data Committee (FGDC) United States Thoroughfare, Landmark, and Postal Address Data Standard

- Next Steps

- Government entities define address differently resulting in lack of interoperability

- Address lacks an enterprise wide data Governance process in DoD
  - Address is a master data concept that should be shared across the DoD enterprise

FGDC Data Standard Overview

- The Federal Geographic Data Committee (FGDC) *United States Thoroughfare, Landmark, and Postal Address Data Standard* provides DoD the raw materials that the Functional Requirements will use to build out exchange solutions

  - The FGDC Data Standard will become a Federal Data Standard in February 2011
    - Currently known adoptees
      - U.S Census Bureau
      - Environmental Protection Agency (EPA)

- The intent is not to require all systems to store data in the same format. Instead, the intent is to enable each system to exchange information in a common vocabulary

- This Federal Standard enables the normal BECCM Process to be accelerated

Address – Next Steps

Completion Date	Milestone
12/08/10	✓Assign Address to a Working Group
12/14/10	Identify SMEs
12/22/10	Agreed to Problem Statement and Problem Scope
12/31/10	Business vocabulary alignment
01/10/11	Proposed Functional Approach
01/18/11	Revised Functional Approach
01/31/11	Approval of Functional Approach
02/28/11	Draft intended use cases
03/31/11	Draft technical results
04/14/11	Finalize documentation
04/29/11	Approval of Enterprise Data Solution
